

Federal Supply Service
Authorized Federal Supply Schedule Price List

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage! ®, a menu-driven database system. The INTERNET address GSA Advantage! ® is: GSAAdvantage.gov.

SPECIAL ITEM NUMBER 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

Axiologic Solutions
6361 Walker Lane, Suite 100
Alexandria, VA 22310
Office: 703-922-5500
Fax: 202-478-0298

Contract Number: GS-35F-159DA

Period Covered by Contract: February 1, 2016 through January 31, 2021

General Services Administration
Federal Acquisition Service

For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov.

Contract period

Note 1: *All non-professional labor categories must be incidental to and used solely to support hardware, software, and/or professional services, and cannot be purchased separately.*

Note 2: *Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.*

Note 3: *This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.*

Customer Information:

1a. Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:

SIN	Description
132-51	IT Professional Services

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See page.18

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. Starting on page.13

2. Maximum Order: \$500,000.00

3. Minimum Order: \$100.00

4. Geographic Coverage (delivery Area): Domestic

5. Point(s) of production (city, county, and state or foreign country): N/A

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None offered

8. Prompt payment terms: Net 30 days

9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold: Yes

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: Will not accept over the micro purchase threshold

10. Foreign items (list items by country of origin): None

11a. Time of Delivery (Contractor insert number of days): Specified on the Task Order and shall deliver or perform services in accordance with the terms negotiated in an agency’s order.

11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor

11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor

11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery: Contact Contractor

12. **F.O.B Points(s):** Destination

13a. **Ordering Address(es):**

Axiologic Solutions
4416 34th St South A2,
Arlington, VA 22206
Office: 202-681-3780
Fax: 202-478-0298

13b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), and a sample BPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).

14. **Payment address(es):**

Axiologic Solutions
4416 34th St South A2,
Arlington, VA 22206

15. **Warranty provision.:** Contractor's standard commercial warranty.

16. **Export Packing Charges (if applicable):** N/A

17. **Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level):** Contact Contractor

18. **Terms and conditions of rental, maintenance, and repair (if applicable):** N/A

24a. **Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants:** N/A

24b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at:** www.Section508.gov/.

25. **Data Universal Numbering System (DUNS) number:** 963846097

26. **Notification regarding registration in the System for Award Management (SAM) Database:** Registered

TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51) AND IDENTITY AND ACCESS MANAGEMENT PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-60F)

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- (c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

The Inspection of Services—Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection—Time-and-Materials and Labor-Hour (MAY 2001) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

- b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries, and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009)

(ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

- (a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
- (b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general, and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
 - (1) The offeror;
 - (2) Subcontractors; and/or
 - (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

- a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbers 132-51 IT Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.
- b. Pricing for all IT Professional Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

LABOR CATEGORY DESCRIPTIONS

Subject Matter Expert Enterprise Architect

Functional Responsibilities: Specific industry experience in information technology with various aspects of the software development lifecycle to include agile techniques, best practices and standards. Defines the problems and analyzes and develops plans and requirements in the subject matter area for moderately complex to complex systems. Prepares analysis, evaluations, and recommendations for proper implementation of programs and systems specifications. Must have at least ten years of specialized experience in the information technology field and a bachelor's degree or equivalent training and/or experience. Manage fact finding, analysis and development of final reports and delivery of presentations related to enterprise architecture. Expert knowledge of enterprise operations and business objectives. Collects, analyzes and interprets data in one or more specialties. Provides high-level architectural expertise and analysis. Develops architectural products and deliverables for the enterprise and operational business lines. Develops strategy of system and the design infrastructure necessary to support that strategy. Solid understanding of Government methodology such as Department of Defense Architecture Framework (DoDAF) and various reference models throughout the community. Seven years or more years of specialized experience with enterprise architecture with a bachelor's degree or equivalent training and/or experience.

Minimum Experience: 10 Years

Minimum Education: B.S. or B.A. Degree

Senior IT Strategist

Functional Responsibilities: Translates customer requirements into formal agreements and plans to culminate in customer acceptance or results. Execute a wide range of process activities beginning with the request for proposal through development, test and final delivery. Anticipates future customer, industry and business trends. Challenges the validity of given procedures and processes with a view toward enhancements or improvement. Creates innovative solutions to problems involving finance, scheduling, technology, methodology, tools and solution components. Leads team on large complex projects. Must have at least ten years' experience in technology consulting and bachelor's degree or equivalent training and/or experience with a master's degree or advanced training in information technology.

Minimum Experience: 10 years

Minimum Education: B.S. or B.A. Degree

Analyst: Enterprise Architect

Functional Responsibilities: Manage fact finding, analysis and development of final reports and delivery of presentations related to information technology. Expert knowledge of organization and Information Technology operations and business objectives. Collects, analyzes and interprets data in one or more specialties. Formulates and defines system scope and objectives, develops or modifies processes to solve complex problems for computer systems and business and electronic interfaces to achieve desired results through the use of innovative technologies. Develops and applies advanced engineering and design methods, theories and research techniques in the investigation and solution of complex and advanced system requirements, hardware/software interfaces and applications and solutions. Seven years or more years of specialized experience with information technology with a bachelor's degree or equivalent training and/or experience.

Minimum Experience: 7 years

Minimum Education: B.S. or B.A. Degree

MIGRATION ARCHITECT III

Functional Responsibilities: Directs and coordinates all activities necessary to complete a major engineering project or several small projects to specification and on schedule. May serve as a task or project lead exercising leadership in either a technical role, training other engineers and implementing and enforcing established standards and technologies or in project coordination role leading tasks and assuming responsibility for the design, development, test and delivery of a system or application. Participates in all phases of systems engineering, including design, analysis and modeling at a highly technical level; analyzes complex computer system requirements to provide integration and implementation support. Performs systems engineering activities to include full life cycle design and development; analyze and document users' functional and data requirements. Develops site survey instruments to gather detailed user requirements and business process analysis. Conducts functional user interviews to document functional, system, domain specific requirements. Formulates system concepts and architecture, specifies requirements and develops implementation approaches. Determines data requirements for internal processes and external interfaces. Develops new systems or tailors commercial products to meet user requirements.

Minimum Experience: 12 years

Minimum Education: B.S. or B.A. Degree

MIGRATION ARCHITECT II

Functional Responsibilities: Directs and coordinates all activities necessary to complete a major engineering project or several small projects to specification and on schedule. May serve as a task or project lead exercising leadership in either a technical role, training other engineers and implementing and enforcing established standards and technologies or in project coordination role leading tasks and assuming responsibility for the design, development, test and delivery of a system or application. Participates in all phases of systems engineering, including design, analysis and modeling at a highly technical level; analyzes complex computer system requirements to provide integration and implementation support. Performs systems engineering activities to include full life cycle design and development; analyze and document users' functional and data requirements. Develops site survey instruments to gather detailed user requirements and business process analysis. Conducts functional user interviews to document functional, system, domain specific requirements. Formulates system concepts and architecture, specifies requirements and develops implementation approaches. Determines data requirements for internal processes and external interfaces. Develops new systems or tailors commercial products to meet user requirements.

Minimum Experience: 8 years

Minimum Education: B.S. or B.A. Degree

STORAGE MIGRATION ARCHITECT II

Functional Responsibilities: Implement, maintain, and engineer storage systems, software, and data integration solutions to business technical problems through the use of COTS hardware and software. Manage, Develop, and optimize the SAN/NAS infrastructure. Develop, maintain, and manage standard operating procedures and configurations of storage network environments. Ensure

thorough implementation of security procedures through physical measures, operating system, and industry security standards. Meet with customer representatives to discuss management and technical issues and devise procedures for rapid problem resolution. May serve as a task or project lead exercising leadership in either a technical role, training other engineers and implementing and enforcing established standards and technologies or in project coordination role leading tasks and assuming responsibility for the design, development, test and delivery of a system or application. Participates in all phases of storage engineering, including design, analysis and modeling at a highly technical level; analyzes complex computer system requirements to provide integration and implementation support. Develops site survey instruments to gather detailed user requirements and business process analysis. Conducts functional user interviews to document functional, network, and domain specific requirements. Formulates system concepts and architecture, specifies requirements and develops implementation approaches. Determines data requirements for internal processes and external interfaces.

Minimum Experience: 8 years

Minimum Education: B.S. or B.A. Degree

PROGRAM MANAGER III

Functional Responsibilities: Plans, conducts and manages research and development work with the origination and application of new and unique techniques. Leads key technical areas and is responsible for meeting project milestones and deliverables. Applies management analysis processes, statistical methods and advanced technical and analytical research techniques to determine solutions based on client requirements. Analyzes operational activities to obtain a quantitative, rational basis for decision making and resource allocation. Employs process improvements and reengineering methodologies and principles for modernization of systems and projects. Creates project plans to achieve performance-based objectives, enhancing implementation, systems and services. Provides integral support in mission requirements determination, conceptualization, design, development, testing, verification and validation, documentation and implementation of system applications.

Minimum Experience: 10 years

Minimum Education: B.S. or B.A. Degree

PROJECT MANAGER III

Functional Responsibilities: Responsible for all aspects of IT project performance to include technical, contractual and administrative. Manages and supervises personnel involved in all aspects

of project activity, organizes and assigns responsibilities to subordinates and oversees the successful completion of all tasks.

Minimum Experience: 10 Years

Minimum Education: B.S. or B.A. Degree

SYSTEMS ARCHITECT III

Functional Responsibilities: Establishes system information requirements in the development of enterprise wide or large scale information systems. Designs architectures to include the software, hardware and communications to support the total requirements as well as provide for present and future cross functional requirements and interfaces. Ensures these systems are compatible and in compliance with applicable standards and architectures.

Minimum Experience: 10 years of experience

Minimum Education: B.S. or B.A. Degree

NETWORK SME III

Functional Responsibilities: Implement, maintain, and engineer network systems, software, and data integration solutions to business technical problems through the use of COTS hardware and software. Manage, Develop, and optimize the LAN/WAN infrastructure. Develop, maintain, and manage standard operating procedures and configurations of the LAN/WAN environment. Ensure thorough implementation of security procedures through physical measures, operating system, and industry security standards. May serve as a task or project lead exercising leadership in either a technical role, training other engineers and implementing and enforcing established standards and technologies or in project coordination role leading tasks and assuming responsibility for the design, development, test and delivery of a system or application. Participates in all phases of network engineering, including design, analysis and modeling at a highly technical level; analyzes complex computer system requirements to provide integration and implementation support. Develops site survey instruments to gather detailed user requirements and business process analysis. Conducts functional user interviews to document functional, network, and domain specific requirements. Formulates system concepts and architecture, specifies requirements and develops implementation approaches. Determines data requirements for internal processes and external interfaces.

Minimum Experience: 8 years

Minimum Education: B.S. or B.A. Degree

STORAGE SME III

Functional Responsibilities: Implement, maintain, and engineer storage systems, software, and data integration solutions to business technical problems through the use of COTS hardware and software. Manage, Develop, and optimize the SAN/NAS infrastructure. Develop, maintain, and manage standard operating procedures and configurations of the SAN/NAS environments. Ensure

thorough implementation of security procedures through physical measures, operating system, and industry security standards.

Minimum Experience: 8 years

Minimum Education: B.S. or B.A. Degree

SERVER ARCHITECT III

Functional Responsibilities: Implement, maintain, and engineer server and virtualized systems, software, and data integration solutions to business technical problems through the use of COTS hardware and software. Manage, Develop, and optimize enterprise server infrastructure. Develop, maintain, and manage standard operating procedures and configurations of the server based Environments. Ensure thorough implementation of security procedures through physical measures, operating system, and industry security standards.

Minimum Experience: 12 years

Minimum Education: B.S. or B.A. Degree

SECURITY ENGINEER I

Functional Responsibilities: Performs work on complex system and management problems involving all phases of systems analysis to provide security solutions. Provides technical support for development and review of security management procedures, product analysis and studies, risk management and secure system, software, or network development tasks. Recommends resolutions of security problems based on knowledge of the major security products and services, an understanding of their limitations. Provides consistent implementation of security solutions; Strong experience and detailed technical knowledge in security engineering, system and network security, authentication and security protocols, cryptography, and application security.

Minimum Experience: 5 years

Minimum Education: B.S. or B.A. Degree

INFORMATION TECHNOLOGY ANALYST I

Functional Responsibilities: Manage fact finding, analysis and development of hypothesis/conclusions and productions of final reports and delivery of presentations. Knowledge of practice, consulting group and matrices, organization operations and business objectives. Collects, analyzes and interprets data in one or more specialties. Develops or participates in the development of assignment methodology. Formulates and defines system scope and objectives, develops or modifies processes to solve complex problems for computer systems and business and electronic interfaces to achieve desired results through the use of innovative technologies. Develops and applies advanced engineering and design methods, theories and research techniques in the investigation and solution of complex and advanced system requirements, hardware/software interfaces and applications and solutions.

Minimum Experience: 4 years

Minimum Education: B.S. or B.A. Degree

INFORMATION TECHNOLOGY ANALYST II

Functional Responsibilities: Manage fact finding, analysis and development of hypothesis/conclusions and productions of final reports and delivery of presentations, including personnel assigned to perform tasks. Knowledge of practice, consulting group and matrices, organization operations and business objectives. Collects, analyzes and interprets data in one or more specialties. Develops or participates in the development of assignment methodology. Formulates and defines system scope and objectives, develops or modifies processes to solve complex problems for computer systems and business and electronic interfaces to achieve desired results through the use of innovative technologies. Develops and applies advanced engineering and design methods, theories and research techniques in the investigation and solution of complex and advanced system requirements, hardware/software interfaces and applications and solutions.

Minimum Experience: 6 years

Minimum Education: B.S. or B.A. Degree

INFORMATION TECHNOLOGY ANALYST III

Functional Responsibilities: Lead all fact finding, analysis and development of hypothesis/conclusions and productions of final reports and delivery of presentations, including personnel assigned to perform tasks. Knowledge of practice, consulting group and matrices, organization operations and business objectives. Collects, analyzes and interprets data in one or more specialties. Develops or participates in the development of assignment methodology. Formulates and defines system scope and objectives, develops or modifies processes to solve complex problems for computer systems and business and electronic interfaces to achieve desired results through the use of innovative technologies. Develops and applies advanced engineering and design methods, theories and research techniques in the investigation and solution of complex and advanced system requirements, hardware/software interfaces and applications and solutions.

Minimum Experience: 8 years

Minimum Education: B.S. or B.A. Degree

INFORMATION TECHNOLOGY CONSULTANT SME

Functional Responsibilities: Lead all fact finding, analysis and development of hypothesis/conclusions and productions of final reports and delivery of presentations, including personnel assigned to perform tasks. Plan, initiate, and manage information technology (IT) projects. Lead and guide the work of technical staff. Serve as liaison between business and technical aspects of projects. Plan project stages and assess business implications for each stage. Monitor progress to assure deadlines, standards, and cost targets are met. Provides Technical/management leadership on major tasks or technology assignments. Establishes goals and plans that meet project objectives. Has domain and expert technical knowledge. Directs and controls activities for a client, having overall responsibility for financial management, methods, and

staffing to ensure that technical requirements are met. Interactions involve client negotiations and interfacing with senior management. Decision making and domain knowledge may have a critical impact on overall project implementation. May supervise others.

Minimum Experience: 12 years

Minimum Education: B.S. or B.A. Degree

EDUCATION / EXPERIENCE SUBSTITUTIONS

It is the policy of Axiologic to hire the most capable employees for all positions. In some instances, education and experience may be substituted interchangeably in order to meet the goals of hiring the best individual for the position. The following relevant education and experience substitutions may be accepted by Axiologic :

Degree	Experience Equivalence	Other Equivalence
Associate's	2 years relevant experience	Vocational or technical training in work-related field
Bachelor's	Associate's degree + 2 years	Professional

	relevant experience, or 4 years relevant experience	certification
Master's	Bachelor's + 2 years relevant experience, or Associate's + 4 years relevant experience	
Doctorate	Master's + 2 years relevant experience, or Bachelor's + 4 years relevant experience	

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENTPROGRAMS

PREAMBLE

Axiologic provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

**BASIC GUIDELINES FOR USING
“CONTRACTOR TEAM ARRANGEMENTS”**

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
